

# Team 3.1 Testing checklists

## Sprint 1:

- UC1. Menu browsing with search

## Sprint 2:

- UC6. Product management
  - Editing product details
  - Deleting a product

### Legend:

- ✓ Passed
- ✗ Failed

## Sprint 1

### UC1. Menu browsing with search

#### *Positive scenarios:*

1. Menu is public – use incognito mode to make sure that page is available for all, without logging in. ✓
2. All products are on the same page. ✓
3. Every product has contain following information:
  - a. Name ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-77>  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-91>
  - b. Price ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-89>
  - c. Size (may vary for diferent products) ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-128>
  - d. Photo ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-76>  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-87>
4. 'Out of stock' if product is not available. ✓
5. Products are sorted by the product name (a-z) ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-152>
6. Search products by their name:
  - a. Full-text search ✓
  - b. Partial search (must start from 2 letters and must look everywhere – beginning, middle, and end of the product name) ✓

7. Filtering products by:

- a. Categories: Cold drinks ✓, Hot drinks ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-142>, Pasta ✓, Pizza ✓, Salads ✓, Soups ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-317>, Starters ✓
- b. Highlight: House special ✓, Spicy ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-82>, Vegan ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-209>, Vegetarian ✓
- c. Allergens: Eggs ✓, Gluten ✓, Milk ✓

8. Filtering products:

- a. Single filter ✓
- b. Multiple filter at the same time ✓

*Negative scenarios:*

- 9. User enters only 1 letter in search – search must show an error: 'Please enter at least 2 letters' ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-220>
- 10. User shouldn't be able to see Admin Access screen from the Menu preview page. ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-186>

## Sprint 2

**Credentials for testing:**

- Email: [admin@email.com](mailto:admin@email.com)
- Password: admin

## UC6. Product management

### Editing product details

*Positive scenarios:*

- 1. The administrator must be able to navigate to the product details from the menu. ✓
- 2. The 'Edit' button must be visible only to the administrator and hidden for other users. ✓
- 3. The administrator must be able to modify all fields of the product. The fields and validations must work in the same way as 'Adding products':
  - a. Inserting product name longer than 50 symbols should throw an error. ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-454>
  - b. Is the product out of stock. (Radio button Yes/No) ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-465>
  - c. Description is required. ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-453>

- d. Category is required with options: 'Cold drinks' ✓, 'Desserts' ✓, 'Hot drinks' ✓, 'Pasta' ✓, 'Pizza' ✓, 'Salads' ✓, 'Soups' ✗
- e. <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-456>, 'Starters' ✓
- f. Optional highlight with options: 'House special' ✓, 'Spicy' ✓, 'Vegan' ✓, 'Vegetarian' ✓
- g. Price is required as number element. ✓
- h. Size – optional text element. ✓
- i. Unit type with options: 'serve', 'ml', 'cl', 'litre', 'kg', 'small', 'medium', 'large', 'extra large' ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-457>
- j. Image is mandatory and must be in 'jpg' or 'png', on wrong formats there should be an error message. ✗ <https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-453>
- k. Allergy information with options: 'Celery' ✓, 'Gluten' ✗, 'Eggs' ✗, 'Fish' ✓, 'Lupin' ✓, 'Milk' ✗, 'Molluscs' ✓, 'Mustard' ✓, 'Nuts' ✓, 'Sesame' ✓, 'Soybeans' ✓, 'Sulphur dioxide and sulphites' ✓  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-458>
- 4. The administrator must be able to cancel editing by pressing 'Cancel' button. ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-319>
- 5. The administrator must be able to save changes by pressing 'Save' button, after saving, the administrator must be redirected to the Menu page. ✓

#### Negative scenarios:

- 6. The navigation to the product details from the menu is not functioning properly (e.g. broken link, incorrect routing). ✓
- 7. The 'Edit' button is visible to users other than the administrator. ✓
- 8. Pressing the 'Cancel' button does not exit the editing mode. ✗  
<https://cerebrumhubstudents.atlassian.net/browse/T11RFOP-319>
- 9. Saving changes with the 'Save' button does not work as expected (changes are not saved). ✓

## Deleting a product

#### Positive scenarios:

- 1. The administrator must be able to delete product from the menu. ✓
- 2. The 'Delete' button must only be visible to the administrator and hidden for other users. ✓
- 3. A confirmation window must appear when the administrator presses the 'Delete' button. After confirming deletion, the product should be removed from the menu for all users. ✓

#### Negative scenarios:

- 4. The administrator is unable to locate or access the 'Delete' button from the menu. ✓
- 5. The 'Delete' button is visible to users other than the administrator. ✓
- 6. The confirmation window does not appear when the administrator presses the 'Delete' button, or the deletion process fails after confirmation (e.g. product remains in the menu despite confirmation of deletion). ✓
